4 mm Sinusscopes

**OUTSTANDING  
IMAGE QUALITY**

# HD SINUSCOPES

## OUTSTANDING IMAGE QUALITY

The 4 mm Olympus HD sinuscopes have been optimized to deliver excellent contrast and high resolution. The true colour HD lens system allows for definition and clarity of finest structures in the entire endoscopic field. This effect is emphasized by the homogenous light distribution.

## GREAT DURABILITY

The three tube construction of Olympus telescopes increases the durability. Superior long-term autoclavability in addition to washer/disinfector compatibility contributes to a high mechanical durability.

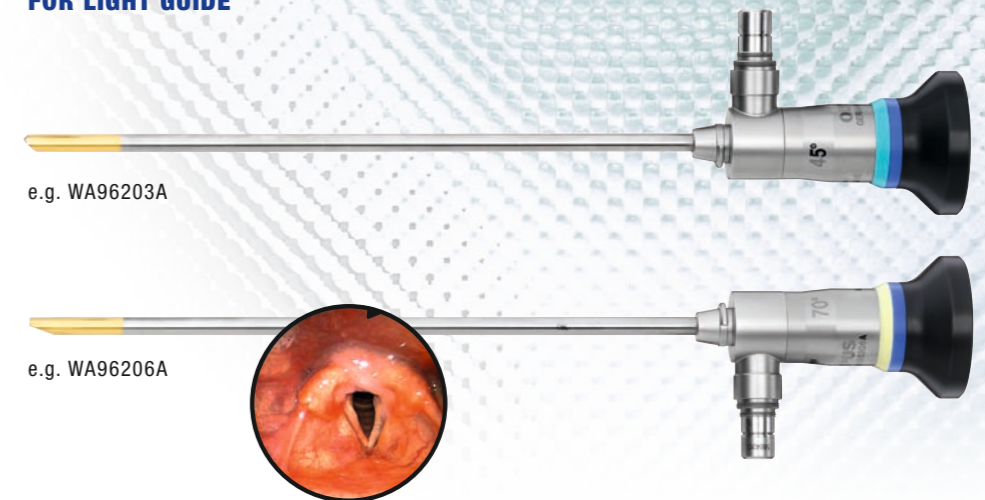

## DIVERSITY FOR YOUR CONVENIENCE

Olympus HD sinuscopes come in a full complement in direction of view as well as traditional and reversed light post options. The 70° telescope with connector for light guide on top can be used as an ultra-slim laryngoscope for a high level of patient comfort.

## FEATURES

- The Olympus optical lens system is eco-friendly as no hazardous materials are used. The HD lens systems are RoHS compliant.
- Virtually distortion-free: The special form of Olympus objective lenses corrects the fish-eye effect which is obvious in standard telescopes. Benefit from a realistic view in the entire endoscopic field.
- Minimization of reprocessing concerns: Besides autoclavability, the HD sinuscopes are compatible with glutaraldehyde and peracetic acid processes in automatic washers/disinfectors.

# HD SINUSCOPES

## High Definition Sinusscopes

146 mm working length

WA96200A Telescope, HD, 4 mm, 0° direction of view, connector for light guide on bottom

WA96201A Telescope, HD, 4 mm, 30° direction of view, connector for light guide on bottom

WA96203A Telescope, HD, 4 mm, 45° direction of view, connector for light guide on bottom

WA96205A Telescope, HD, 4 mm, 70° direction of view, connector for light guide on bottom

WA96202A Telescope, HD, 4 mm, 30° direction of view, connector for light guide on top

WA96204A Telescope, HD, 4 mm, 45° direction of view, connector for light guide on top

WA96206A Telescope, HD, 4 mm, 70° direction of view, connector for light guide on top

## Accessories

WA96208A Handle, for sinusscopes, autoclavable

WA03200A Light-guide cable, size S, plug type, 3 m, CF type

A5940 Instrument basket, for 2 telescopes, outer dimensions: 462 x 52 x 105 mm

WA05990A Instrument tray, for 2 telescopes, outer dimensions: 446 x 49 x 88 mm
